

White background printing

The the simplest and quickest way of printing, with turnaround in 2 days.

Unit cost per loose chocolate is £2.00 + VAT for up to 100 units, and £1.20 over 100 units.

Dark background printing

When printing light colours such as white, silver & gold, we use a special technique to print on milk or dark chocolate. This requires a bespoke tool that takes 3 weeks to order.

Unit cost per chocolate is the same, but there is an additional £150 tooling fee.
